BANGOR, Oct. 28, 1856.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds, for good dwelling-houses and other buildings to be erected in this city, the coming season. He has excellent workmen at his employ, and has superior stock, so that he is now able to supply those about to build this best article of Door Frames, Window Frames, Sashes and Blinds, made to any dimensions and of superior quality, either for a whole building or for a less quantity. The trouble and expense of putting things very much lessened by having these articles made separately, so that the carpenters have only to put them in their place in the structure.

This business has now become so well systemized that only a small margin is left in knowing beforehand the cost of every building, while the work is of a uniform excellent quality.

Any one intending to examine specimens of the work at the factory, near the Rowe Place, or at the store of M. S. Jackson on Exchange st., and at either place any article may be obtained or large quantities ordered.

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized as the business that no man should now think of building after the old and slow and imperfect methods.

OF

OLIVER ALLUN'S Dancing Academy!

Lewis' Block—Main St.

JUVENILE CLASSES will commence on WEDNESDAY, Sept. 10th, at 2 o'clock P. M. Adult Classes can be formed to suit the convenience of pupils. The subscriber is most happy to inform patrons, and the public generally, that he will present to them the latest and most fashionable styles of Dancing now taught.

Among the new Dances are several which are now taught in the best Schools of Boston and Paris. Others include the Varsoviana, Coska, Redowa Waltz, Elmerade and the various forms of Polka and Redowa Dances.

New Styles of Quadrilles and Waltzes will also be introduced, which with the superior advantages offered to pupils for practice, will, it is hoped, meet the approbation of all.

For terms please apply to the subscriber at the Hall, Lewis' Block, Main street.

Indian Medical Institute,

Office 36 Bromfield street, Boston.

ESTABLISHED BY

DR. R. GREENE,

And his Associates,

For the successful and Scientific treatment of Cancers, Scrofulous Humors, and all kinds of Diseases originating in the *Nerves*, or Internal system of medicines.

(This Institution has now in it, the *MEDICAL OFFICE and LABORATORY*, at 36 Bromfield-street, and several boarding Houses for the accommodation of patients from abroad. A Newspaper has been established, advocating this system of practice. It is entitled "Nature's Arcanum," or the "Great Indian Physician." It is published monthly for 50 cents a year.

There are also connected, with this Institution Bathing Rooms, where the patients can have the benefit of the

Electro-Chemical Baths.

Dr. Greene has also discovered a process, by which he can, with the solvent properties of certain plants, *MEDICATE* each bath, to suit the constitution and disease of any patient, and remove its various kinds of diseases upon the same principle which the Electro-Chemical Bath removes Mercury or other minerals.

This is the greatest triumph of Botanic or Medical Reformers, and offers new facilities for purifying the blood from all humors, and removing *CANCEROUS TUMORS*, &c.

DR. GREENE may be consulted personally or by letter free of charge. Circulars sent to those who request. All letters should enclose a postage stamp, and be directed "*DR. R. GREENE*, 36 Bromfield street, Boston."

Indian Medical Society.

At a meeting of this Society, held in Boston, October 1, 1856, the following officers were chosen:

Rev. Noahs Hall, Boston, President.

Reuben Gladwin, M. D., Boston, Vice President.

Louis Noyes, Esq., Boston, Secretary.

Wm. Ellis, Esq., Boston, Treasurer.

The following resolutions were unanimously adopted:

Resolved, That in associating ourselves together to extend and perpetuate the Indian system of medicine upon scientific principles, we are conferring a favor upon the afflicted, and advancing the cause of true medical science.

Resolved, That we have had considerable evidence that Dr. Greene's treatment has cured hundreds of cases of Cancers after they were acknowledged incurable by other physicians, and that the truth of his practice for the last ten years conclusively prove that Cancers, Scrofula, Humors of the blood, and various other diseases which have been found no remedy in the labyrinths of the old practice of medicine, are permanently cured by a judicious use of "Nature's Remedies," in scientific and skilful hands.

Resolved, That we will not countenance any pretenders, or quackery in any form, or receive as physicians for this Society any persons who have not received a medical education.

Resolved, That we recommend the continued publication of the newspaper entitled "Nature's Arcanum," and that an extra copy containing evidence to be procured in different parts of the country be furnished free of charge to any person calling at the office, or forwarded by mail, enclosing a post paid stamp, addressing Dr. Greene, 20 Bromfield street, Boston.

Singer's Sewing Machines.

THESE celebrated machines are in practical and profitable use in all parts of the civilized world. In all the various trades, and for sewing every sort of fabric, either of cloth or leather, they have been fully tried and approved. Sewing machines of other manufacturers are on hand, to sell or work, but SINGER'S MACHINES ALWAYS OPERATE PERFECTLY, being strong, durable, and complete in contrivance and workmanship. A perfect sewing Machine kept employed affords a clear profit of $1000 a year; but an imperfect one is a cause of constant vexation and loss. The onlie *reliability* of our machines is one great reason for their unparalleled popularity.

MACHINES FOR FAMILY SEWING

of a frail and delicate construction, are recommended by other manufacturers. Such machines are made to catch the eye, not to perform substantial work. The truth is, family sewing machines ought to be stronger than any other, because they go into less skillful hands than when sold to manufacturers, and are used for a greater variety of work. The machines which have proved best for all other purposes must be best for family use, and they are Singer's. The speed of our machine has lately been doubled. No other can compete with them in quantity of work.

NEW machines, of the latest improved style will be exchanged on liberal terms for old sewing machines, of our own make, or for operators' machines of other manufacturers. Local agents wanted to sell our machines.

N. B.—All persons desiring full information about sewing machines, can obtain it by applying for a copy of "I. M. Singer & Co's Gazette," a paper devoted entirely to the subject. It will be sent gratis.

TUESDAY, NOV. 11, 1856.

The Election of Buringame.

Hardly second in interest to the grand result, was the question whether Boston—speaking for Massachusetts—would reject Anson Burlingame as one of her Representatives. Every body knew his public history—the scenes through which he had passed, and yet fresh in the mind, upon his Commonwealth, which he had resented, the gross charges which he has refuted, and his glowing and eloquent defence of her fame and honor, were none of them forgotten. And stronger and clearer still was the remembrance of his manly bearing and undaunted courage, when he spoke of the cowardly, felonious and ruffian attack upon Sumner, by which a true and noble man was most foully stricken down, and Massachusetts, in the person of her Senator, was prostrated by ruffian violence on the floor of the Senate—and her sovereignty and her honor both called for her defenders. In that hour of darkness and doubt, when timid men quailed and cautious men retreated before this new development of brute violence in the halls of legislation—this young and earnest man stood up in his place and repelled the assault upon New England, and with unfaltering eye and dauntless bearing, denounced the personal outrage as one paralleled only by that first assault, when Cain stole upon his brother Abel and smote him. It was well,—it was nobly done. As by a shock it startled the whole people of the free States, and Burlingame was at once enshrined in the hearts of every son of the pilgrims, who had not bowed down to the idol of slavery, and who had not lost all pride in the fair fame of the land of his birth, by yielding up all of manhood and all of self-respect to money and cotton bags and the success of the "all mighty."

This assault was at first the apparent act of an individual, and conservative men hoped to see it denounced North and South, in Congress and out of it, in terms which would fix the brand of infamy on its perpetrator. But South Carolina adopted the act and crowned the actor with garlands, and feasted and toasted him as her chosen and honored champion, and by a unanimous vote returned him again to his seat—and rejected the endorsement by a re-election to the next Congress.

The great body of the Democratic party refused to expel him, and stood by him and his blockade. It thus became not merely an assault on a man, but an 'adopted' recognized and assumed insult and outrage upon Massachusetts, and her honor and her sovereignty,—gross wanton, and unrelieved by a single mitigating feature.

All eyes were turned to Massachusetts to see how she would bear herself. Massachusetts has spoken, when she could speak at the ballot box, and in a voice which in unanimity, in earnest boldness and honorable self-respect, proclaims that she has felt the attempted degradation and knows how to protect her honor and her assaulted representatives. *Sumner* will go back to the Senate, by a unanimous vote of the Legislature, there again to stand in his place, the fearless, the eloquent, the consistent opponent of wrong, injustice and slavery aggression. Thanks to Massachusetts, for this noble tribute to the man, and this manful assertion and defence of her independence and honor. Thanks to her for returning to Congress an unbroken phalanx of true and undaunted men. In every district out of Boston this was done by overwhelming majorities. But in Boston a struggle—bitter, long-continued and unyielding, was carried on foot and most earnestly continued. All the truest men of the North were astounded that such a contest and such an opposition should be there originated. We all thought that every son of Massachusetts would be eager to emulate the example of South Carolina, by returning their champion and fearless defender by a unanimous vote. The only doubt was whether there might not be found here and there a craven devotee of slavery, who would silently and shrinkingly deposit a vote against him, and thus distinguish it from the absolute unanimity of South Carolina. But who thought that there would be a second class, found who would consent to stand—or be found, that men could be found to support him? For this was not a party question—half or mainly. It was not a question even of a very extensive. It was not a question of preference for men. But it was simply whether Massachusetts should retain her representative, who in the hour of peril, of insult of outrage, had stood as Burlingame stood as the defender of her honor, as the Cincinnatus of her traducers, as her champion in the field. What if, in his ardor—his burning and irrepressible sense of wrong and insult—when taunts, sneers and bitter vituperations were poured out upon his State, when Massachusetts was held upon the Senate floor and apalling eyes were turned to see if Massachusetts men dared to be men, and to speak strong words and stand by them? What if this young man did speak an unguarded word and commit himself to a course of action which the Puritan in his closet, away from the time and the scene, might think not so judicious or so commendable as the stand taken by Senator Wilson? His error, if it was one, was the error of an honorable, mind—sensitive, earnest and fearless. If it was an error, he did not give the occasion which his enemies and the enemies of his State hoped he might, by a craven retreat or pusillanimous avoidance of his responsibility. He stood firmly, and his glowing and eloquent words still stand unretracted and uncancelled, to pierce the hearts and sustain the courage of future defenders of the North, in the coming struggle with slavery aggression.

And yet history must record the fact that his re-election was most violently and persevering opposed by a large body of his immediate constituents. Yes, the commercial city of Boston has almost defeated him. A coalition of the most opposite elements combined to effect that purpose. The extremes here met in *close embrace*. The Beacon street aristocrats *and money kings*, the devotees of Mammon,

who care for nothing but cash and lands and cotton, who look upon trade and its success as the first great duty of man, and who worship any calf, if it be but golden and submit to any insult or outrage, if by resenting it "the full trade" might be affected, or felt that Burlingame had been injudicious, rash, exciting, that he had stirred up the bad passions of the Southern autocrats and perilled the interests of trade, and that he must be put down. Another class of political men, who had themselves shrunk in timidity and doubt, had stood shivering on the brink" when called to take their proper station as leaders of the people in the great uprising which was moving all hearts, and who missed their opportunity when they failed in their duty, and now find themselves set aside and avoided where they once were sought and honored, and their places given to other men, who never graduated at your ancient Universities, or had the entree into the select circles of exclusive society or into the charmed list of wealthy families. These men felt that a new man had been suddenly thrust before them and won fame and laurels which they *might* have been theirs had they been true to their instincts, their New England education and their patriotic duties.

But now it will always be, and the lesson which recent events have taught these men, and which they feel at this hour in the bitterness of regret, may not be lost on other statesmen and politicians. Whenever a great crisis comes, there are always men who come with it—and they come not from the observation of the wise or prudent, but directly out of the hearts of the people. And if those to whom the people turn, look naturally and calmly instinctively for leaders, when a mighty struggle is impending and great issues are forming—have themselves, hesitate, qualify or abscond, through fear, or selfishness, or personal motives—the people will not give up their contest but seek other and new candidates, who if not experienced men or known as leaders, will yet prove the men for the hour and the issue.—And this instinct of the people is seldom at fault, and the wisdom of their choice is proved by the success and bearing of the unknown and unexpected nominee.

Passing by a long stride over the substantial middle class of society, these ancient politicians and cotton lords, in their eagerness to wipe out the offence given to Southern customers by this rash defender of Massachusetts, and to sell trade and gratify personal feeling engendered by disappointment, by scouring to Brooks and South Carolina, the cheering news that Pennsylvania was defeated—called into council and took by the hand the self styled Democratic party who are always ready to do any of Slavery's work, and hand in hand Lexington street and Ann street moved to the polls, and foreigners and Know-nothings—aristocrats and what not, the disgusted and the unwashed the fair and jaundiced bellies of State street in broadcloth and satin, with glossy and smooth hat, and the gaunt and shirtless dwellers in groggeries, all, all, all, with one heart and one mind, rushed to the work of demolishing this new man—this arch-up-rising of sedition, to a defender of Massachusetts and offender of the slave of gatchy.

But thanks to Providence and the strong-hearted sons of labor, the mechanics—the intelligent working men, the sound and healthy middle class, (as it is termed) united with patriotic merchants and professional men. Anson Burlingame, against all this combination of wealth, of influence, of party bitterness, I mean re-elected by a majority of 8 votes!!!

Thanks to Massachusetts, who again risked his life in the effort to reach his home, and who spoke there timely-eloquent and truthful words of counsel of the great battle, and by his presence and his speech gave new courage to the true men of the 6th District.

Interesting Correspondence. John W. Fourney has addressed a letter to Robert J. Walker stating his apprehension that serious and exten ive frauds were contemplated in Pennsylvania. There can be little doubt that Mr. Fourney knows as much about the matter as anybody; and although he may make some little mistakes about the *direction* of the frauds we have no question that he is right in the fact.

The following is the vote of the Ward which embraces within its limits the notorious "Five Points," New York city.

Buchanan 670	Fremont 171	Fillmore 13

A horse ran away at St. Stephens, N. B., last week and killed a Mrs. Lisbey by throwing her from the wagon, and Miss Hall, a young lady with her had her leg broken.

The Baltimore (Md.) Patriot makes the following remarks in relation to the recent election of Mr. Buchanan:

"Extreme parties have always been for a time the strongest, and the result shows that the rule still holds good. But every evil works its own cure, either in the death of the patient or his restoration to a healthier condition, and the time will yet come when "sober second thought" will assert its right to be heard, notwithstanding the efforts which have succeeded in repressing its utterance. Like Preston S. Brooks, we have no faith in Buchanan pills;" they have been forced upon us nevertheless, and we are now to test the effects of the purgation. We doubt the efficiency of the Democratic compound, but bitter, as it is to the taste, we are not disposed to make wry faces about a thing which cannot be helped.—Mr Buchanan *may* prove, in the language of his friends, better than his platform; though by thus saying, they desire us to believe that his medicines have greater virtues than the drugs of which they are composed.

Banks and Burlingame.

At a meeting of the Bangor Republican Club last evening, Gen. S. F. Strickland, E. L. Hamlin, and Henry E. Prentiss, Esqs., were appointed a Committee to invite the Hon. N. P. Banks and Hon. Anson Burlingame to address the Republicans of Bangor, on some convenient evening next week, upon the politics of the day.

Although defeated by a small majority of the Electoral vote, the Republican party are not disheartened but are determined to preserve their organization in all its efficiency and be prepared for a fresh conflict whenever and whenever an opportunity occurs.

Independent Lectures. John B. Gough Lectures this evening at Norombega Hall, the first of the Independent course. Mr. G. has a wide reputation as an eloquent Temperance Lecturer, and has few equals and fewer superiors. This Lecture will undoubtedly be one of the most interesting of the course. Secure a ticket for yourself and family and attend the course, and you will undoubtedly be well repaid.

Land Agency. We would call the attention of our readers to the advertisement of Messrs. Plaisted & Hathaway, general and agents at Dubuque Iowa.

Mr. Hathaway is the son of Hon. J. W. Hathaway of this city, and is therefore familiar to nearly all of our readers. Mr. Plaisted was formerly a resident of Wiscasset. Mr. Business entrusted to their care, will undoubtedly receive prompt attention.

Four Days Longer. The Exhibition of the Panorama Of Savior will remain open at Johnson's Hall for four days longer, every afternoon and evening. We hope our friends will not miss their last opportunity to witness this thrilling scene. An explanatory lecture is given at each exhibition. The tickets are only 15 cts.

☞ Stockholders in P. & K. R. R. Co., will notice on referring to the advertising columns, that the special meeting will be held at Kendall's Mills on Tuesday the 25th inst. instead of on Thursday the 13th ult., as before advertised.

Mose will be burned again at City Hall this evening.

John B. Gough and lady, arrived last evening and secured rooms at the Bangor House.

John B. Gough.

Mr. Editor: We learn that the gentleman to open the Independent Course of Lectures, *this evening*, at Norombega Hall.

The Committee deserve much credit for their perseverence, in obtaining the services of this distinguished and world renowned orator. He is of all living men, probably the most powerful and eloquent pleader in the cause of humanity, and produces the most wonderful effects upon his hearers by his peculiar and characteristic style of speaking.

Those who have ever heard Mr. Gough, cannot now stay away and all those who never enjoyed that treat must see to it, that they do not lose this opportunity, as it will, in all probability, be the last time his magic voice will arouse and it must use to now and better resolutions.

Valuable Coal Mine on the Pacific. By recent despatches to the Navy Department from Commander Swarwout, of the United States steamer Massachusetts, the important fact is communicated of a discovery of valuable coal on the Straits of San Juan de Fuca. This discovery was made by Capt. J. H. Thornike. About four tons of it was dug out by Indians and carried on board the Massachusetts, through the heat, as Commander Swarwout remarks:

"Cannot be considered as a fair one, because as miners call it, it was the first crop of coal, taken about three feet below the surface, and which is always regarded as refuse. Doubtless when they get deeper into this mine the specific gravity and other valuable properties will prove to be greatly enhanced."

The situation of this mine on Fuca Straits, nearly equi-distant between Pillar Bay and Callam Bay, and about twenty-three miles from Cape Flattery. In reporting on the local position and circumstances of this mine, Capt. Thorndike says:

"The height of the mountain is from ten to twelve hundred feet; the formation is sandstone; six beds of coal ranging in thickness from one to three feet, dip 10 degrees. Distance between coal beds ranging from twelve to one hundred feet. From high water mark thirty feet to low-water mark 650 feet.—From coal beds to five fathoms' water about 800 feet."

Capt. Thornike has commenced working the mine with some experienced English miners, who report very favorably of the qualities of the coal. The mine is admirably situated as respects facility of drainage and shipment.

Assistant Engineer Patterson, of the Massachusetts reports of this coal, after the test, in the following terms:

"I find it superior to any coal I have seen on this sound, with one exception; that is, its rapidity of combustion. It leaves about five percent. of clinker, which with proper tools can be easily removed from the grates. The weight is forty-seven pounds per cubic foot, and deposited, including clinker, about thirty per cent. by measure. It compares with Cumberland coal in weight against equal bulk as eight to ten, evaporative efficiency six to ten."

Without proceeding to a precise analysis, Mr. Patterson estimates this coal to consist of about seventy parts carbon, twenty of bitumen, with the remaining ten parts of silica and earthy matter.

State Fair.—We learn that the receipts of the recent State Fair amount to about $8,500, which together with the amount received from the State will make about $10,000. This sum will pay the expenses, but will not probably leave any surplus in the treasury of the Society. If the tickets had been differently arranged a much large sum might have been received.—*Portland Transcript.*

Cramp.—Those who may be subject in the night time to that excruciating pain called cramp, will doubtless be glad to learn that by tying any kind of a bandage tight around the leg, immediately above the knee, this unpleasant sensation will be instantaneously removed.—*Exchange.*

Dangerous Counterfeits. Look out for counterfeit two dollar notes of the Bank of North America, Seymour, Conn; also on the Bank of North America, Providence, R.I., of the same issue. They have a spread eagle for a vignette, with the portrait of Clay in the lower right hand corner, and a figure of Justice on the left.

An Oasis.—*Prince John all Right on the Record.*—It is pleasant to observe that amidst the varying fortunes of the political fight, John Van Buren holds his own. His influence can be traced all along the line of the electioneering route, Chicago, where we believe he began, rolled up a roundly increased majority for Fremont. The Western and Northern sections of this State, where he labored with a social zeal, send down prodigious pluralities for the candidates whom he opposed. St. Lawrence, Oronteago and Cayuga counties, which he visited seemed to have forgotten that Buchanan was in the field at all. And nothing apparently saved Maurice from giving a unanimous vote for Fremont, except that John failed to keep his appointment there in consequence of a storm on Lake Ontario.—Now York,—which he quit at the very opening of the canvass,—showed her sense of the service by giving a larger Democratic vote than ever before.

John has talents, and it is cheering to see them thus appreciated. His speeches always tell,—though not always in the precise way he would prefer. But the people will not forget his eminent services in 1848,—and the recollection of them called up by his efforts now, was too potent even for him to overcome. He tried to dovetail his Free-Soil sentiments thus upon the Buchanan movement now;—but the effort was a failure. The people liked the sentiments, but repudiated the attempted application.

John deserves office at the hands of Mr. Buchanan, but we fear he won't get it. Merit is seldom rewarded in this world. Some of his old friends have got to content upon him in the political race. John Cochrane for example, got office under Pierce and is now elected to Congress,—by doing the "heavy work of the Administration. The Prince's work proved decidedly heavy;—but the reason don't show so well. In politics men are paid for what they accomplish,—not for what they undertake. Prince John must try again.—*New York Times.*

Passports Refused to Free Colored Citizens. *New York, Nov. 3.* Advices from Tampico to the 20th of Oct., state that Gen. Garza had been taking active measures to oppose the progress of Vigourri, and that the greatest alarm and excitement prevailed throughout the entire region. Tranquility had however been somewhat restored upon the receipt of a report that terms of accommodation had been agreed upon between Garza and Vigourri, and that the latter had agreed to recognize Comonfort's government.

J. A. Thouns, Assistant Secretary of State, has written a letter to the Clerk of the Superior Court of this city, in reply to an application for foreign passports for a troupe of negro minstrels, who are about to start on a foreign professional tour. After reciting several judicial decisions bearing on the matter, the Secretary says: "Such being the Constitution in regard to free persons of color, it is conceived that they cannot be regarded, when beyond the jurisdiction of this Government, as entitled to the full rights of citizens; but the Secretary directs me to say, that though the Department could not certify that such persons are citizens of the United States, yet if satisfied of the truth of the facts, it would give a certificate that they were born in the United States, and free, and that the Government would regard it to be its duty to protect them if wronged by a foreign government, while within its jurisdiction for a legal and proper purpose."

Railroads in India and Russia. The shipment of railroad iron from England to India is still employing a very large amount of England and American tonnage; and railroads upon a truly gigantic scale are in course of actual construction in British India, in full three of which the East India Company have loaned their credit. The great want of India, heretofore, has been means of internal transportation. This has been so costly that the productions of its fertile soil and teeming population have been limited to a much smaller extent than would otherwise have been the case. Those who know the capacity of the country, say that with the encouragement of the government and facilities of transportation the exports of the agricultural products of India may be increased tenfold in a few years. The magnitude of the railroad system now in progress of construction and projected, may be estimated from the statements concerning some of the principal lines, namely: the East India Railway to Delhi, 900 miles, 520 miles under contract, 180 miles or more now open, and the whole to be completed during the year 1859; the Great India Peninsular Railway from Bombay, 47 miles of which have been opened for travel; the Scinde Railway, 110 miles to the Indus, and the Central Railway, to Ahmedabad, 103 miles.

The latest intelligence from Europe confirms the report that the Russian government is arranged with the most eminent Bankers of Europe, for the main lines of railroad, the whole length being over 5000 miles, and the present constituted capital being 60 million dollars, but looking to the expenditure of 220 millions before completion. In regard to the short interest lines, the government has decided that nothing shall be done until certain improvements in the inland navigation now under consideration shall have been completed.

The lines agreed upon are a line from Moscow to Nishni; a line from Moscow to Theodesia on the Black sea; a line from Moscow to Libau, and a line from St. Petersburg to Warsaw, with branches from St. Petersburg to join the Prussian lines. M. Saurage, of the Strasburg railroad, who has studied the question in behalf of the company in Russia states in his report that the revenues of these roads will be fair, even in the actual condition of Russian civilization, although four-fifths of the income will be derived from the freight trains alone.

"Do you pay proper regard to the physical development?" asked Dr. Simms of Mrs. Partington, as he was feeling like a pin so who had stuck a dozen times three days on pretence that he was sick. She pondered the question with an uncertain air.—"I have given him nothing but syrup of pickets installed itself in her mind, and as for his devilment, he has got enough of that already, for the straw is most dilatory to mow, and boys and girls learn devilment full fast enough already, without our learning it to 'em." He smiled as he was bound to do at one dollar a visit. "Billious," said he, as if thinking aloud; "there is a tendency to undue secretion in the biliary ducts." "That's just it," said the old lady, clasping her hands, as she heard the wisdom of the doctor, "he has two much tenderness for secretly going with the billiard ducks, I am afraid, and I do wish he could be broke of it before he goes clean to desecration." "You must make him mind his P's and Q's," replied the doctor turning towards the window, to write a prescription the old lady following him. A crash of glass attracted their attention, and turning they found that Ike had just made a cotton, by using the doctor's cane for a cue, with Mrs. Partington's snuff box on two glass tumblers, and pocketed the box bottom up under the sofa.—*Boston Evening Gazette.*

An elk, with large branching horns, harnessed to a buggy, and driven through the streets of St. Paul Minnesota, a week or two since, created some excitement, among the denizens of that place. He was well broken and distanced the "fast horses" with ease.

The Albany Express has the following advertisement:—"Wanted as able-bodied Irishman to hold my wife's tongue—she and I being unable to keep it quiet. Constant employment given."

Negro Insurrection in Arkansas.—We learn from the Memphis papers that there is great excitement in Union County, Arkansas, on account of the discovery of a plot among the negroes to rise in rebellion. Fortunately the plot was discovered in time to prevent one of the most bloody massacres in the whole annals of insurrection. The plot was very extensive, and the negroes who were taken up and made to confess, implicated others twenty miles off. Some of the negroes say the rising was to take place on the day of, or immediately after, the Presidential election. The men all being from home on that day, the plot was to murder the women and children first, and then attack the unarmed men at the polls. Several white men have been implicated, and notified to leave the country within a given time or to be hung. The latter says that on the Colorado the excitement is intense, and that several negroes have been hung. The plot seems to have been very extensive, reaching as far as Texas.

A Veteran Vote For Fremont. Rev. "Father Sawtell," of Garland, who was *one hundred and one years old* on the 9th ult., went to the polls last Tuesday and voted for Fremont and Dayton. He regards it a Christian as well as a secular duty to sustain Republican principles against the unchristian cause which reduces men "created in the image of God," to absolute involuntary servitude for no crime, against the laws of God, and the rights of man, and which aims to spread this great human wrong all over the American Union.

Perhaps the Bangor *Journal* will, for a variety, discontinue for a little while its heathenish, vandal and brutal assaults upon the clergy of this city, and call "Father Sawyer" to an account.—*Jeffersonian.*

Insult to the American Consul and Flag at St Domingo. *New York, Nov. 6.* A letter in the *Daily Times* from St. Domingo, dated Oct. 15, states that on the 11th a mob, instigated by the Spanish Consul General assembled before the U. S. Consulate, insulted and drove away the Consul, and attempted to pull down the American flag.

The letter further states that Segovia, the Spanish Consul had overturned the Dominican government and sent to the American minister, Delmonte, his passport.

Tuscogee and Nasho Girls at Auction.—A farm of 267 acres, adjoining the town of Winchester, Va., is advertised for sale, which offers, among others, the following inducements to purchase:—"At the same time will be sold two negro children, (girls) of four and six years, and a library, consisting principally of the *theological collection of the late Rev. Dr. Hill*, and containing some rare and valuable works."

Found Dead. We learn that Mr. Gardiner Bean, of West Gardiner, was found dead in a field in that town a few days since. He had been long subject to epileptic fits, and it is supposed that he died in one of them. He was 35 years of age.—*Home Journal.*

Another good one was got off in Illinois lately. The democrats had a grand rally and barbecue. An Irishman went to some of the democratic leaders and said: "And sure didn't ye know better than to have a barbecue on Friday, *when two-thirds of the democratic party can't ate mate!*"

Dr. Johnson, when in the fullness of years and knowledge, said, "I never take up a newspaper without finding something I would have deemed it a loss not to have seen; never without deriving from it instruction and amusement."

Grain Plenty. It is stated as an evidence of the abundance prevailing, notwithstanding the high price of flour, that the Virginia Central Railroad has been unable to supply cars enough to transport to market the wheat and other produce offered at its depots.

A locomotive has been constructed in France weighing sixty tons, and having drivers 20 feet in diameter. It is capable of running 50 miles an hour.

The World's Verdict. In all delicate cases where blame is due, you will generally find the following law acted upon: The poor man is accused, the rich man excused.—*Punch.*

Dreadful Casualty at Binghamton.—*Binghampton, Nov. 8.* The dwelling of Mr. Perkins, near Kirkwood, was burned last night. Mr. Perkins, his wife, father and seven children perished in the flames.

In a Dutch translation of Addison's Cato the words: "Plato, thou reasonest well," are rendered, "ugt so—you are very right, Mynheer Plato."

LATER FROM EUROPE.

ARRIVAL OF THE

B A L T I C .

AT NEW YORK.

New York Nov 6th

The Collins steamship Baltic from Liverpool morning of the 26th ult. arrived at this port this morning. The steamship Africa arrived at Liverpool on the morning of the 27th.

The feature of the news which has attracted much attention is an official paragraph in the Moniteur complaining that the English Press publish sentences against the French government and hoping but a menace that consideration of such conduct will break up the entente to French alliance. This paragraph has caused excitement both in England and France having even affected the Bourse, and is reported that the British government will also complain of the threat to dismember Turkey.

Respecting the Neapolitan difficulty, the only additional progress says that the French Embassy as also probably the British left Naples on the 25th.

Count Walewski official correspondence with the Neapolitan government is published. The English fleet is at Malta, and the French at Toulon.

A German paper says the squadron will go to Naples in three weeks if matters are not settled.

The Paris papers, really unanimous respect to the complicated relations of the Danubian principalities. It is denied from Vienna but reasserted from Paris that the Porte has summoned the Austrians to quit. In this connection it is asserted that the Congress of Paris is likely to meet soon, to sanction the assent of England, Italy, that Russia inspired the assassination of Austria's ambassador, and between Moldavia and Austria's rescue, the Prince palm of demands a Russian squadron to enter the Black Sea on the same terms as the English & French now have.

The Turkish ministry has resigned. The cause is attributed to the intrigues of Lord Stratford to bring in Redschid Pasha as Vizier.

Nothing from Spain except a contemplated change in the army.

Letters from France are unsatisfactory. The emancipation money contributes unabated.

Latest.

By Telegraph from Liverpool to Liverpool.

Liverpool Saturday evening. Variation in the prices of the day at last the market closing the same as yesterday. The supply of money in the discount market was more liberal, but the supply of cash still unwilling to lend. All the money offered in stock exchange found takers at 6 per cent and 6 per cent.

The final quotations on the Paris Bourse today were 66 for money, showing a recovery of 2 per cent.

Flour and decrease to day in the bullion of the Bank of England.

Advices from St. Petersburg says railway concessions have been granted a French company for 50 years, under a guarantee of 4½ per cent with an additional half per cent for sinking fund. The total amount is £4,000,000 sterling and will work down all Russian securities, our market, and in some degree every other enterprise.

Vienna Thursday Evening. The Austrian correspondence does not emphatically the statement that the Porte had protested against Austria occupying the Principalities.

Advices from Corfu anthorize a note that the Austrian ultimatum has been unaccepted.

The Elections

Illinois.

Returns from 71 counties give Fremont 7650 majority. The remaining 24 counties will probably give Buchanan 10 000. There is nothing reliable from the 7th Congressional district. The Republican State ticket is thus in about 13 000 ahead.

We have the following additional report in regard to Illinois. The editor of the Chicago Times (Douglas paper) telegraphs to Washington the Buchanan has carried Illinois certain.

Despatches to the Washington Union say Fremont and Fillmore men fused on the State ticket with accounts for the success of the ticket, but the Buchanan electoral ticket is certainly elected.

Later Returns received at Chicago this morning indicate Buchanan has carried the State by 3000 majority. The Republican State ticket has about 9000 majority. Allen (dem.) probably elected in the 7th district, making the delegation stand five dem to four rep. Tuesday will have a majority of three in the House. Both parties claim the Senate.

Iowa.

Dispatches gain and lose about equally with August election. The result will not vary 20 either way from that election.

Louisiana and Mississippi.

Dispatches *not very reliable*, received at Washington say the results in these States are doubtful.

Indiana.

Fremont's majority thus far is nearly 1 000. Returns to come in will probably reduce it to 1 000.

Tennessee.

Despatches received at Richmond report the vote as having gone for Buchanan by about 20 000 majority. This statement is based on full returns from Eastern counties.

WASHINGTON, Nov 10th

Hon Chas Cahn Ingham, one of the Presidential Electors has been appointed Associate Justice of the Supreme Court, to fill the vacancy caused by the death of Burrell.

There is no truth in the rumor brought by the last European mail, that the United states would be required to become a party to the Congress of Paris.

Supposed Steamboat Disaster.

OSWEGO, Nov 10th

It is feared that the Propeller J W Brooks on Lake Ontario in the late gale with all on board. Parts of a hurricane deck supposed to belong to her came ashore at Henderson on Friday, and quantities of flour and lard were seen floating about between Sackets Harbor and Rings n. The Brooks had a full cargo of produce and a crew of 20 men. She probably had some passengers also.

The men who were in a spo[illegible] Louis arrived on on Saturday, aboard the schooner J G Doolittle are been rescued.

Political Riot.

BALTIMORE, Nov 10.

Another riot occurred here last night, between two political clubs in the upper part of the city growing out of an attempt to cut down an American flag pole. Guns, pistols & a small cannon were used. Several persons were dangerously wounded.

More Disunion.

New York, Nov 10th

The Charleston Mercury of the 7th contains a long letter addressed to Gov Adams of South Carolina, by B Barnwell Rhett, urging an immediate dissolution of Union and the establishment of a Southern Confederacy. He argues that next to abolitionism the chief cause of grievance of the South, is the tariff, and he proposes that in the approaching modification of that measure South Carolina should demand that it shall be reduced at least to the standard and principles of 1833, and if such a tariff is not conceded, why then asks, should South Carolina, or any other Southern State, any longer keep Representatives in Congress. In another part of his letter Mr Rhett says, "In my humble judgment a true secession ship in the South consists in forming committees and shaping events so as to bring about as speedily as possible, and also at the proper time on and the erection of a Southern Confederacy.

Death of Hon. John M. Clayton

PHILADELPHIA, Nov 10th

Hon John M. Clayton died at Dover Delaware, last evening.

Destructive Fire.

Rochester, 10th

We learn that when the cars passed through Geneva this morning, at half past 6 o'clock, a fire was again in that village, which had already destroyed a large amount of property. The store and warehouse of M. Price was burned, with 3000 bushels of barley, and 3000 bushels of rye. The canal stables were also destroyed and in them burned 40 canal horses.

New York, 10th.

A disastrous fire occurred early yesterday morning on Warren street, totally destroying four large warehouses together with the extensive stock of merchandise. Total loss estimated at $800 000. Fully insured.

Buffalo, N Y, 10th.

The severest gale of Saturday morning did considerable damage here. Buildings were blown down roofs blown away, &c.

The freight-house, wood shed, and a large quantity of wood belonging to the State Line R R, at Westfield was burned Friday night.

The propeller Wisconsin from Ogdensburg to Chicago, with a full load of merchandise and 90 passengers burnt her boilers on Sunday off Grand river, Canada, scalding a deck hand fatally. She was towed back to Port Colburn.

Notice to Wood-Haulers.

BY order of the Court of County Commissioners of the County of Penobscot, sealed proposals will be received at the Clerk's Office of said County for furnishing eighty cords of merchantable green hard wood and twenty cords of green hemlock with the bark on not more than one fourth of the hard wood to be beech the remainder to be maple and yellow birch. Said wood to be piled in the Court House yard and then surveyed by some competent surveyor—the whole to be piled and ready for survey by April first next, after which it is to be sawed and properly split for the several fires in the Court House and Jail and then carted up to dry, and afterwards piled in under cover, the hard wood by the stove in the rear of the Court House and the hemlock in the place designated by the jailer, the piling to be completed by the first of July next.

Two thirds payment to be made when the wood is surveyed and the balance when the work is completed. Satisfactory assurances will be required for the faithful performance of the contract—Said proposals to be handed in on or before Friday December 12th 1856.

The Commissioners will not be bound to consider any proposal unless it be guaranteed by some responsible person.

Non-Explosive Camphene & Fluid

LAMPS and CANS.

HAVING purchased the Patent Right for the State of Maine for the above Lamps I am now prepared to offer them to purchasers in every variety adapted to the use of Parlors Churches, Stores, Factories, Vessels Steamboats and Railroads.

These Lamps are constructed on scientific and philosophical principles, and are the *only sure* prevention against explosion from Camphene and Burning Fluids being made of the most durable materials not subject to accident from breakage or corrosion—will burn freely without smoke, giving an equal and steady light, (the same as gas ever produced.)

The above Lamps have proved after four years trial to be the best Lamps in use giving universal satisfaction and proving perfectly safe.

These Lamps will be sold at wholesale or retail, as low as the ordinary Camphene and Fluid Lamp, by J S RICKER No 10 West Market Square, Bangor, Me, dealer in Lamps, Coins and Crockery Ware.

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Greatly Reduced Prices.—60 lbs. Baggage Free.

Through Tickets, including transit of the Isthmus, via Panama R. R.

By order of the Postmaster General, the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Pier, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense*. This is the *only* line giving points Through Tickets, including *meals*, on the Isthmus.

Transit is made in *four hours entirely by daylight*, thus avoiding the great exposure by night, incidents to fever and ague, and 200 miles of disagreeable lake and river navigation over rocks and flats.

Arrangements have now been completed so that with the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a sure and *short* passage, without any detention on the Isthmus.

☞ *Tickets must be signed by one of the Company's Agents before they will be recognized by the Agents at Panama*, and Tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C. L. BARTLETT, Agent,

AYER'S CHERRY PECTORAL,

FOR THE RAPID CURE OF

Colds, Coughs, and Hoarseness.

BOSTON, Mass., Oct. 2nd, 1855.

DR. J. C. AYER: I consider it due to you the best remedy I have ever found for Coughs, Hoarseness, Influenza, and the concomitant symptoms of a Cold, is your CHERRY PECTORAL. It so stank me in my practice and my family for the last ten years that without it I would be powerless for virtue for the treatment of these complaints. EBEN KNIGHT, M.D.

A. D. MORTLEY, Esq., of Utica, N.Y., writes: I have found your PECTORAL unique and in my family never since I first used it. I consider it the best remedy for its purpose ever put up. Will it be sent me by express? I will cheerfully certify to its virtues. I would pay twenty-five dollars for a bottle than be without it, if I could not obtain any other remedy.

Croup, Whooping Cough, Influenza.

SPRINGFIELD, Mass., Feb. 7, 1855.

BROTHER AYER: I gladly certify that your PECTORAL has proved very successful in my practice in the cure of Whooping Cough, Croup, and the other diseases of children. Many of your friends in this locality are receiving your skill, and recommend your medicines to our people.

HIRAM JORDAN, M.D.

AMOS LEE, Esq., MONTPELIER, Ga., writes, on Jan., 1855: I had a terrible influenza, which confined me in bed six weeks; took many medicines without relief; finally tried your PECTORAL by the advice of our physician. The first dose relieved me greatly, and in three days I was entirely well. You can imagine how much I value your medicine, when I say that I consider it worth its weight in gold. Your medicines are the cheapest as well as the best we can buy, and we always use them, and recommend them, in preference to all others.

Asthma or Phthisic, and Bronchitis.

MANCHESTER, Va., Feb. 4, 1856.

SIR: Your CHERRY PECTORAL is a perfect antidote for all pulmonary complaints. It has relieved me of a distressing symptoms of consumption, and is now curing my wife of a severe affection of the throat, for which Dr. Jeremy Upshaw's Asthmatic Elixir was prescribed in vain. Yours, with gratitude,

A. A. HANLEY, M.D., Atlanta, Monroe Co., Ga., writes, Sept. 8, 1855: I have found your CHERRY PECTORAL a thing equal to our Creator. I have used it in my practice and in my family for the last ten years, and have never found anything to equal it for the cure of Coughs, Colds, Influenza, Croup, Asthma, Bronchitis, and Consumption. I have also used it in my practice with the most astonishing success in Chronic Pulmonary Complaints, and I am satisfied that it will cure the most distressing cases of Consumption, when all other remedies fail. Yours, with respect,

We might add many more testimonials, but the most convincing proof of the virtues of this remedy is found in its effects upon the

Consumption.

Probably more cures of this dreadful disease have been effected by this remedy than by all other medicines combined. Some of these cures have been so remarkable as to attract universal attention, and to obtain for the CHERRY PECTORAL a celebrity which is unparalleled in the history of medicine. Many of these cases have been published, and are well known throughout the country where they occurred. Others have come under the observation of the proprietor, during his travels for health and recreation, and he has preserved the evidence of them for future publication. Many of the most eminent physicians of the country have given their patients the CHERRY PECTORAL, and have acknowledged the results to be in accordance with the claims we make for it. Many of the most distinguished clergymen have also testified to the benefits they have derived from it, and have kindly permitted us to refer to them. Many of the most prominent citizens of the country have also given us the right to publish their names in favor of the CHERRY PECTORAL, and have permitted us to refer to them. Many of these are well known to the people of the whole country, and their names would be recognized at once. Many of them have sent us the particulars of their cases, which are remarkable in the highest degree, but which we have not room to publish. Many Physicians of the highest standing in the profession have also been kind enough to furnish us with the particulars of cases in their practice, and to permit us to refer to them. Many of these are well known to the public by the reliability of any reports in which they have sent us the particulars of their cases, and we only publish a few of the most remarkable, and such as have been thoroughly tested by the most eminent physicians, and have been published in the most reliable papers in the country. Many Preparations are in the market, which profess to be equally as good as the CHERRY PECTORAL, but the unparalleled success which has attended the use of this remedy has induced many unprincipled men to attempt to counterfeit it, and to impose upon the credulity of the people spurious preparations, which, by their failure to cure, have brought into disrepute the name of a remedy which is justly entitled to the confidence of all mankind. Public confidence in this remedy is now so firmly established, that the genuine can be distinguished from the counterfeit, and the sick will not be deceived.

This Agent below named is pleased to furnish gratis my pamphlet almanac, containing certificates of the most remarkable cures in his section. It has also for sale my Cathartic Pills, Cherry Plaster, Ague Pills, Liver Pills, Sarsaparilla, Cathartic Pills, Cherry Plaster, Ague Pills, Liver Pills, Sarsaparilla, and Cathartic Pills, which are highly recommended by many of the most eminent physicians and citizens of the following cities:—Lowell, Boston, Lynn, Salem, Lawrence, Roxbury, Dedham, Hingham, Hyannis, Nantucket, Plymouth, New Bedford, Taunton, Fall River, Worcester, Milford, Springfield, Northampton, Lowell, Lawrence, Lynn, Salem
